

# Lotus 64 HP

## Diesel Hydraulic Power Pack

The Lotus unit is a larger hydraulic power pack with a 64 HP Kohler four cylinder diesel engine designed for heavy duty continuous operation in the most severe environments.

The engine is the “silent pack” version with a noise absorbing enclosure to assure quiet operation.

- The chassis has a full pan to contain any spills.
- The strong chassis has both lifting eyes on top and lugs for a forklift on the bottom.
- Durable powder coated finish.
