

SMP 100

Submersible Sewage Pump

The pump is available with an auto coupler type of sump mounting to allow easy removal and replacement for maintenance. The option for hydraulic power allows the use of the pump in sumps which have flammable liquids with the safety of a complete absence of electricity.

Electric motor driven units:

- **Quite dependable 480 volt motors**
- **External cooling jacket can allow continuous dry running**

Hydraulic motor driven units:

- **Intrinsically safe**
- **Light weight**

Available with auto coupling base kit for easy removal and reinstallation of pump for inspection or maintenance.
