

SPL 150

6" Self-Priming Suction Pump

Gulf Equipment Group, LLC is the exclusive US distributor of the German designed ALLWEILER-FARID SPL self-priming pumps

The SPL Series are self-priming centrifugal pumps. Before operating, the case is filled with liquid and the internal design of the pump will remove the air from the suction pipe.

The SPL Pump is used for:

- Draining of Sanitary Sewage Water
- Draining of Industrial Waste Water
- Pumping of Petroleum liquids
- Feeding or Drainage of Fish Farms
- Agricultural Drainage
- Fire Fighting

Available as bare pumps or complete assemblies on base plates or trailers, with gasoline, diesel or electric drivers.
